

Parks

Parks bring us together. They lift our spirits, free us from the same-old and give everyone a reason to play like a kid again. Simply put, parks are good for the soul.

At FivePoint Valencia, we're planning a variety of parks and green spaces that will inspire you to walk, run, ride, swim, play, climb, hang with your neighbors or just spend an afternoon under the shade of a big ol' tree. And the best part, all our parks are planned to be threaded together by a network of trails, connecting you to all sorts of interesting destinations including ... you guessed it ... more parks.
